Why Choose

HOMESCORE¹⁰

When you find your dream home you deserve to know exactly what you're buying. However, your mortgage valuation won't point out any necessary repairs or structural issues that could cost you money further down the line.

A Homescore report by Green & Company's team of Chartered Surveyors uses a clear rating from 1-10 for all key areas of the property, quickly and easily identifying any areas of concern.

Buy with confidence and understand your property condition - without the jargon.

**Contact Green & Company
to book your Homescore report today.**
